before purchasing it in order to gauge whether or not it would be worth my time, and all praised *The Animal Review: The Genius, Mediocrity, and Breathtaking Stupidity That Is Nature*:

By booklover343I heard about this book on one of NPR's books on CD about driveway moments (animal stories). It's so laugh-out-loud funny that I keep reading sections of it to my husband. Each animal they cover is described and graded. The grades are mostly based on survivability so some beloved animals are rated low because they don't do a lot to stay alive. The book is written in brief chapters and can be read separately so this would be a great book to keep in the car and read while waiting for an appointment or for a store to open. It's clever and light-hearted. Don't miss it.

By Lucky808This is one of the funniest books I've stumbled upon in a long time. Each chapter grades and rates a chosen animal in humorous yet factual detail. It's too bad they didn't write text books like this when I was in school, because it would have made remembering things a lot easier. I think this would be a really good inexpensive gift, too. I'm giving it 4 hooves up.

By Andrea Morrison MDMan, whoever woulda thought that a review of pros and cons of a multitude of animals would be hysterically funny - AND teach something about the animals- but really tres amusant! Not me.... but this book changed my mind. I want to see lots more by these authors. About other animals or anything else that strikes them as funny! Like I said - absolutely delightful!!!! Loved the book, and have bought it for friends, colleagues, relatives and others. A++++I wanna see MORE by these two guys.....

.com Ever since our ancestors first set eyes on a woolly mammoth and agreed that it was hunt-worthy, human beings have been making judgments about animals. The king cobra? That's an A-plus animal. The garden snail? D-minus. On a good day. In *The Animal*, Jacob Lentz and Steve Nash give authoritative listings and ratings of dozens of your favorite (and least-favorite) animals. Expanded from their popular blog, the entries mix fascinating animal facts with hilarious assessments, set off with brilliantly captioned photos and enlightening charts and graphs. Full of sophisticated, kid-friendly humor and tons of interesting information, *The Animal* is a perfect gift for animal lovers of any age. A Look Inside *The Animal* (Click on Images for More Information) Birding The King Cobra The Great White Shark The Panda About the Author Jacob Lentz writes the nightly monologue for the Jimmy Kimmel Show.
