Gill Partington : The Axis of Evil Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised The Axis of Evil Cookbook:

I am sorry that I asked them to order it. While the writing about each country is entertaining, and her snarky sense of humor is great, and the bits about each leader are fun, the recipes aren't well written, and I don't know when I have seen less appetizing photography. It's like they set out to make the food look as bad as possible. The after photos with bibimbap really looks like vomit.It is interesting to know that she considers Quorn to be a reasonable substitute for dog in a recipe.The recipes are oddly incomplete, too. For example, her recipe for halvah begins, "Add the flour into a frying pan of hot oil and stir until thick and golden. Dissolve the sugar in a glass of water and then boil the mixture in a pan..." She doesn't give amounts for the hot oil or the water, and I can't imagine how the recipe would turn out without actual amounts. The other recipes are similar.7 of 7 people found the following review helpful. Amusing book, cheap bindingBy readerThis book is an amusing combination of political write-ups and recipes from the various "axis of evil" and "axis of kinda evil" countries in the worldview of America. I've tried several of the recipes with great success -- the ones from Iraq, Iran and Syria are simple and tasty good.Unfortunately, this book could have not been bound any cheaper. I hadn't finished going through it the first time before pages already started falling out. VERY DISAPPOINTING, especially as cookbooks get a workout in the kitchen and a tight binding is greatly appreciated.

The existence of Gaddafi is closely related to the historical development of humanity itself. Colonel Gaddafi Ever wondered what an Axis of Evil leader eats after a day spent threatening neighboring countries with weapons of mass destruction? This unique cookbook tells you how to prepare these dishes in the safety of your own home. Present a genuine dog stew for that special dinner party and play spot the Elvis impersonator among Axis leaders. Both funny and informative, this book also includes cultural anecdotes and political insights. Gill Partington is thirty-five years old and lives in North London with her cat.
