**Karl Marks, Dan Indante : The Complete A\*\*hole's Guide to Handling Chicks** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete A\*\*hole's Guide to Handling Chicks:

3 of 4 people found the following review helpful. Not a real advice book - Satire and seriously funny By J. Kaiser This book is not garbage, and there is no violence in it! Let's face it: men and women think vry differently about the same things, and the choices most women make are confusing at best to a man. Hey, it's not MEN's fault women really do choose the men they do when they have nice guys to choose from! It is satire and very funny. What makes it so funny is the strong elements of truth to what a man experiences in life relating to women. For example, the book describes

the social strata in high school and what to expect from it, and it's spot on and hilariously funny. I recommend this book to any man who has been frustrated by the seemingly twisted way women think (and choices they make) and who has a sense of humor. I also recommend it to a woman who wants to understand a little better how men think and how their own thinking and choices appear to men, with the understanding that this is thick with satire sarcasm from men wanting to validate our experiences and feelings with other men. Good stuff. \*\* There is a review here that states the book encourages men to hurt women and do violence. Not true. The point of the book is that women hurt themselves with the choices they make, thus encouraging men to act up. When a nice guy sees most women falling over themselves for the a\*\* hole men described in this book, it doesn't take a man long to figure out that being Mr Nice doesn't cut it with most women. Also, the violence reference may allude to the sex "advice" part of the book where it talks about some rear spanking during certain sex acts. Calling this violence will be news to the women I know who like this and ask for it. The satire and humor was obviously lost on that reader.0 of 0 people found the following review helpful. ... this as a gift to a friend and he loved it. Congratulations, man! By picking up *The Complete A\*\*hole's Guide to Handling Chicks*, you are just pages away from finally understanding:- How a five-dollar date can get you laid- How to stop being friends with girls and start getting them in the sack- Where you'll have the best odds of finding a one-night stand, and how to get rid of the chick the next morning- How to trick a woman into thinking you're classy, even if you have holes in your underwear- Why fat chicks always try to keep you from banging their hot friends, and how to finally stop these evil creatures- How to stop your wife from nagging you into an early grave- Why it's possible to watch six hours of football, put the moves on your neighbor's hot daughter, and leave the toilet seat up in the same day- And much more*The Complete A\*\*hole's Guide* isn't like all the other candy-ass relationship books on the market; it doesn't cover issues like romance, love, and finding Miss Right. So, if that's what you're looking for, there are plenty of other books you can hide under your skirt as you skip out of the store. This book is about controlling the women in your life, and never having to say you're sorry . . . EVER AGAIN!We'll take you from the day you're born to the day you die and show you how women can be manipulated, frustrated, and ultimately dominated throughout the course of a man's life. By illustrating the insanity of the female mind, we'll show you why the flawed chick psyche causes them to continuously fall for the a\*\*hole, no matter how many times they get burned. If you're not interested, that's fine. We're sure there are ballet classes you need to attend before your wine and cheese party. However, if you are ready, then grab a six-pack, order a pizza, and get your hand out of your pants because you're about to read the most perverse, sadistic, and hysterical relationship book ever written. Enjoy!

His mother and three sisters should be proud.As an attorney, Dan Indante has spent the last ten years representing talentless writers and entertainers whom he secretly despises. As a man, he has spent the last 34 years dating heartless, soulless women whom he much more openly despises. He is co-author of *The Complete A\*\*hole's Guide to Handling Chicks*.
